

Unlock your next discovery

Company overview

Westlab has been supporting the scientific and medical community since 1993.

Reliable suppliers and innovators, we deliver cutting edge, future-proof solutions.

Ensuring that our clients have a consistent supply of the latest products and equipment, from test tubes to intelligent full-lab fit-outs - when they need them.

Your
discovery
improves
our world.

Our approach

Westlab offers a complete range of solutions for clients that value quality, speed, convenience and a personalised approach to customer care.

Our point of difference exists in our three core motivators: Creativity, Speed and Hassle-Free solutions.

Innovation

We look at the world differently, always searching for trailblazing solutions to your needs. Delivering cutting edge lab equipment and supplies.

Efficiency

We work on the front-foot to ensure a timely and consistent supply of our latest solutions, via a local supply chain – ensuring your peace of mind.

Expertise

We proactively search for the best solutions, enabling you to focus on your next discovery – safe in the knowledge that you are always working with the best on offer.

Equip

- High quality, reliable and cost-effective laboratory equipment

Supply

- Ongoing supply of consumables and related services

Design

- Create laboratory spaces aimed to enhance collaboration and efficiency

Furnish

- Manufacture and installation of modular laboratory joinery

Design

Our in-house design team specialises in working with leading architects and builders to create functional and future-proof laboratory spaces.

Using the cloud-based 3D Designer platform, our team collaborates with clients to create the best laboratory spaces for their needs – always offering innovative solutions to stay on the leading edge.

3D Space Planner

Configure your floor plan easily, from one room to a complete floor

Customise interior design with over 300 different modules

View your floor plan in 3D without extra software

Access your projects anywhere, with smartphone and tablet functionality

Furnishing

Modulab Connect® is Westlab's proprietary furnishing system that's designed to be fully modular, allowing laboratories to quickly adapt to their ever-changing needs.

The Modulab Connect® system is **made in Australia** using industry specific materials able to withstand the extreme conditions faced by laboratories while remaining highly configurable and cost-effective.

Frames & Modules

- Laboratory benching
- Gratealls (storage)
- Drawers
- Doors
- Trolleys
- Overheads

Service Spines

- Bench mounted
- Floor mounted with shelving
- Ceiling mounted with shelving

Hardware

- Fume cabinets Taps, Turrets
- Sinks
- Lab stools & Chairs

Equipment

Westlab's portfolio of market-leading equipment is designed to offer reliability and accuracy for higher productivity and efficiency.

All products are developed in conjunction with end users to ensure high standards in practicality, consistent value for money and quality.

Equipment range

- Autoclaves
- Balances
- Heating Mantles
- Centrifuges
- Ultrasonic Cleaners
- Glassware
- Washers
- Dangerous Goods Cabinets
- Dispensers
- Freezers
- Fume Hoods
- Heating & Cooling Blocks
- Hotplates & Stirrers
- Hydrometers
- Incubators
- Lab Blenders
- Melting Point
- Microscopes
- Mixers, Rollers & Shakers
- Moisture Analysers
- Ovens
- Pipettors
- Refrigerators
- Rotary Evaporators
- Sterilisers
- Storage (Gratnells)
- Trolleys
- Waterbaths
- Water Purification
- Wire Shelving
- Vacuum Pumps
- Other Equipment
